

GRADES AND GRADE POINT AVERAGE

Grading System

The following grades are given in graduate courses; numerical values for letter grades are determined by individual academic programs:

- A** Four quality points per credit hour
- B** Three quality points per credit hour
- C** Two quality points per credit hour

The maximum number of hours of "C" grades permitted to count toward doctoral degrees, education specialist degrees, master's degrees, master's level professional educator certification programs, or graduate non-education certificates is six semester hours. Graduate students may earn no more than six (6) semester hours of grades below "B". Students who earn more than six (6) semester hours of "C" grades or below are automatically made ineligible, at which time they may petition the Dean of the Graduate School through the academic ineligibility appeals process. Some graduate programs may have more stringent requirements than university policy, and students should refer to their program for specific requirements.

- F** Failing - Zero quality points

- P** Passing - Grade given for thesis hours and other selected courses as specified in the course descriptions in this catalog.

The grade of "P" does not affect the GPA. The grade of "F" on a pass-or-fail course is computed as a regular "F" grade. A grade of "P" may only be assigned for the final thesis hours when the student has successfully defended the thesis and all paperwork has been signed by the thesis committee and submitted to the Graduate School with the final thesis draft.

- I** Incomplete

Assigning the grade: The grade of "Incomplete" or "I" may be assigned by an instructor if extraordinary circumstances prevent a student from completing course requirements, and only if the student is passing the course after the last day to withdraw from the current term. The "I" grade does not immediately affect a student's grade point average.

Completing the course requirements: The student is responsible for submitting the "Incomplete Grade Completion Plan" form after discussing the completion plans with the instructor. Coursework must be completed within the next major (fall or spring) semester. Grades of "I" will roll to "F" on the day grades are due in each term. Students should not register for the course again. Once the student has completed all course requirements, the instructor submits a grade change to the Registrar's Office. The Registrar then notifies the student of the grade change. Failure to complete course requirements within the established time frame will result in a grade of "F" being assigned.

Requesting extensions: The student must submit an "Incomplete Grade Extension Request" form to extend the time to complete the requirements within the following term. All incomplete grade

extensions must be submitted to the Registrar prior to the last day of finals in the fall and spring semesters. The Instructor, Department Head, and Dean of the Graduate School must approve the extension before the Registrar processes the request. If at any time during the process, as detailed above, the instructor is not available, the appropriate department head and/or academic dean will represent the instructor's interest.

Incomplete grades and Graduation: All incomplete grade extensions for all courses, including those not required, must be completed prior to the degree being awarded. Otherwise, the grade of "I" will be converted to "F" for the degree GPA to be calculated.

- NC** No Credit

When a grade of incomplete is not applicable, the no credit (NC) grade may be given to a student who is otherwise passing but who is unable to complete a course due to circumstances beyond the student's control. An "NC" grade is not calculated in the student's GPA. A grade of "NC" must be approved by the Dean of the Graduate School. A grade of "NC" cannot be retroactively assigned.

- WF** Withdraw Failing - Will be counted as a grade of "F" with zero quality points (Last term used, summer 2020)

- WP** Withdraw Passing - Non-punitive (Last term used, summer 2020)

- X** Audit - No credit

Grade Point Average (GPA)

A graduate student's overall GPA is calculated on graduate-level courses only. The GPA is determined by dividing the quality points earned by the number of hours attempted. The GPA is not rounded. For reporting purposes, the GPA is truncated to two places past the decimal. All graduate coursework is factored into the GPA, even if a student takes courses not required for the degree, changes majors/concentrations, seeks a second graduate degree, etc. For those graduate students completing more than one program, the required GPA must be obtained both within the program and cumulatively.

Any student who does not attain good standing, as specified by their program, may be dismissed from the Graduate School. Good standing is defined as meeting the minimum required GPA for a degree or certificate program. Students failing to successfully reach the required GPA will be placed in one of the following statuses: Academic Probation or Academic Dismissal. Students who fail to reach the required GPA at the conclusion of the academic term and are more than six hours down (i.e., requiring seven hours of "A" grades to meet the required program and/or cumulative GPA) will be dismissed from their academic program and the Graduate School. For purposes of this regulation, part of terms are collectively considered one semester.

Transfer credit cannot be used toward the GPA of JSU coursework to meet the required minimum GPA of any major, professional educator certification program, or graduate certificate program (<http://www.jsu.edu/graduate/disclosure.html>).

The maximum number of hours of "C" grades permitted to count toward doctoral degrees, education specialist degrees, master's degrees, master's level professional educator certification programs, or graduate non-education certificates is six (6) semester hours. Graduate students may earn no more than six (6) semester hours of grades below "B". Students who earn more than six (6) semester hours of "C" grades or below are automatically made ineligible, at which time they

may petition the Dean of the Graduate School through the academic appeals process. Some graduate programs may have more stringent requirements than university policy, and students should refer to their program for specific requirements.

Midterm and Final Grades

At midterm, grades can be viewed on MyJaxState. Midterm grades are reported for fall and spring semesters only. Check the academic calendar for dates. Final grades can be viewed through MyJaxState. Final grades are also viewable permanently on the transcript.

Microcredential Courses Grades

Students must earn a minimum "B" or better in each of the microcredential courses. No course substitutions may be made for a microcredential unless otherwise specifically stated in the catalog program.
