

GRADUATE CERTIFICATE PROGRAMS

Graduate students who are currently enrolled in a graduate degree program may seek to complete a graduate certificate program concurrently. Instructions for enrolling in a secondary program can be found on the Graduate Admissions webpage. Students are limited to completing one graduate certificate program at a time. Upon completion of one graduate certificate program, students are then eligible to enroll in additional graduate certificate offerings. No more than two, 12-hour certificate programs (for a total of 24 hours) may be applied toward a 30-hour graduate degree program. Once a completed graduate certificate is applied towards a graduate degree program, it is not eligible to be applied to another degree program.
