

DOCTOR OF NURSING PRACTICE (DNP)

DNP 8796 DNP Project Planning and Development (3)

To progress to this course, all previous coursework counting towards the graduate or doctoral nursing degree must be completed with a grade of "B" or better. The purpose of this course is to synthesize previous learning in the DNP program which will provide a foundation for the DNP Clinical Residency courses. The focus of this course is on the development of a practice-focused problem, issue or process that will be pursued during the DNP Clinical Residency. The emphasis of this course is on the acquisition of knowledge and skills necessary to initiate the translation of evidence-based practice and clinical scholarship impacting the healthcare system to decrease risk and improve health care outcomes for the population served. (Due to circumstances that may arise in the student's progression through the program, the student may be required to retake the course.) Offered summer and fall terms only.

DNP 8797 DNP Residency I (210 Clinical Residency Hours) (3)

Prerequisite(s): DNP 8796.

To progress to this course, all previous coursework counting towards the graduate or doctoral nursing degree must be completed with a grade of "B" or better. The DNP Residency I is the first of three Clinical Residency courses that are considered a key component of the Doctor of Nursing Practice educational program. The purpose of this course is to combine clinical practice experiences with scholarly activities to provide in-depth learning for the student. The focus of this course is on the continued development and implementation of a practice-focused problem, issue, or process that will be evaluated during the DNP Clinical Residency courses. The emphasis of this course is on the acquisition of knowledge and skills necessary to initiate the translation of evidence-based practice and clinical scholarship that is impacting the healthcare system, in order to decrease risk and improve health care outcomes for the population served. Offered fall and spring terms only. (210 Clinical Hours)

DNP 8798 DNP Residency II (210 Clinical Residency Hours) (3)

Prerequisite(s): DNP 8796 and DNP 8797.

To progress to this course, all previous coursework counting towards the graduate or doctoral nursing degree must be completed with a grade of "B" or better. The DNP Residency II is the second of three Clinical Residency courses that are considered a key component of the Doctor of Nursing Practice educational program. The purpose of this course is to combine clinical practice experiences with scholarly activities to provide in-depth learning for the student. The focus of this course is on the continued development and implementation of a practice-focused problem, issue, or process that is being evaluated during the DNP Clinical Residency courses. The emphasis of this course is on the acquisition of knowledge and skills necessary to continue the translation of evidence-based practice and clinical scholarship that is impacting the healthcare system, in order to decrease risk and improve health care outcomes for the population served. Offered spring and summer terms only. Grades: Pass/Fail. (210 Clinical Hours)

DNP 8799 DNP Residency III (210 Clinical Residency Hours) (3)

Prerequisite(s): DNP 8796, DNP 8797, and DNP 8798.

To progress to this course, all previous coursework counting towards the graduate nursing degree must be completed with a grade of "B" or better. The DNP Residency III is the final Clinical Residency course that is considered a key component of the Doctor of Nursing Practice educational program. The purpose of this course is for the student to present and receive approval for the final Scholarly Project. The focus of this course is on the final development and implementation of a practice-focused problem, issue, or process that was pursued during the DNP Clinical Residency courses. The emphasis of this course is on the acquisition of knowledge and skills necessary to continue the translation of evidence-based practice and clinical scholarship that is impacting the healthcare system, in order to decrease risk and improve health care outcomes for the population served. Offered summer and fall terms only. Grades: Pass/Fail. (210 Clinical Hours)
