FAMILY NURSE PRACTITIONER (FNP)

FNP 668 Advanced Family NP I (3)
Prerequisite(s): NU 613, NU 620, and NU 607.
Corequisite(s): FNP 669, FNP 671.
The purpose of this course is to integrate basic knowledge of human anatomy and physiology with an understanding of the pathologic changes and clinical manifestations that characterize common, acute, chronic, and complex disorders in pediatric, adult, obstetric and geriatric clients. The focus of this course is on the development of critical thinking skills necessary to achieve direct care and core competencies of the family nurse practitioner. The emphasis of this course is on the acquisition of the knowledge and skills necessary to deliver safe and effective care to pediatric, adult, obstetric and elderly populations.

FNP 669 Advanced Family NP Practicum NP I (1)
Prerequisite(s): NU 613, NU 620, and NU 607.
Corequisites: FNP 668, FNP 671. The purpose of this course is to demonstrate management strategies and apply selected practice models for the delivery of high quality care to pediatric, adult, obstetric, and elderly populations. The focus of this course is on the delivery of health care services to the family. The emphasis of this course is on promoting the progression of competence within the Advanced Practice Nursing role. (70 clinical practicum hours)

FNP 670 Health Promotion/Disease Prevention & Issues for FNP (2)
Prerequisite(s): NU 607, NU 613, and NU 620.
Corequisite(s): FNP 668 and FNP 669.
The purpose of this course is to integrate prior theoretical and practical knowledge for diagnoses and management of health and illness in pediatric, adult and geriatric populations. The focus of this course is application of health promotion lifestyle changes, disease prevention concepts and genetic screening options in pediatric, adult, obstetric and geriatric populations. The emphasis of this course is to examine clinical preventive services and health promotion in pediatric, adult and geriatric populations.

FNP 671 Advanced Family NP II (3)
Prerequisite(s): FNP 668, FNP 669, and FNP 671.
Corequisite(s): FNP 673.
The purpose of this course is to continue to integrate basic knowledge of human anatomy and physiology with an understanding of the pathologic changes and clinical manifestations that characterize common, acute, chronic, and complex disorders in pediatric, adult, obstetric and geriatric clients. The focus of this course is on the development of critical thinking skills necessary to achieve direct care and core competencies of the family nurse practitioner. The emphasis of this course is on the acquisition of the knowledge and skills necessary to deliver safe and effective care to pediatric, adult, obstetric and elderly populations. (210 clinical hours)

FNP 672 Advanced Family NP II (3)
Prerequisite(s): FNP 668, FNP 669, and FNP 671.
Corequisite(s): FNP 673.
The purpose of this course is to continue to integrate basic knowledge of human anatomy and physiology with an understanding of the pathologic changes and clinical manifestations that characterize common, acute, chronic, and complex disorders in pediatric, adult, obstetric and geriatric clients. The focus of this course is on the development of critical thinking skills necessary to achieve direct care and core competencies of the family nurse practitioner. The emphasis of this course is on the delivery of care to pediatric, adult, obstetric, and geriatric populations. The focus of this course is to prioritize management strategies and apply selected practice models for the delivery of care to pediatric, adult, obstetric, and geriatric populations. The purpose of this course is to provide the student with opportunities to integrate in depth diagnostic and management skills to provide care for pediatrics, adult, obstetric, and geriatric populations. The emphasis of this course is on the formulation and management of individualized treatment plans based on diagnostic findings and current practice models.

FNP 673 Advanced Family NP Practicum II (3)
Prerequisite(s): FNP 668, FNP 669, and FNP 671.
Corequisite: FNP 672. The purpose of this course is to prioritize management strategies and apply selected practice models for the delivery of care to pediatric, adult, obstetric, and geriatric populations. The focus of this course is to provide the student with opportunities to integrate in depth diagnostic and management skills to provide care for pediatric, adult, obstetric, and geriatric populations. The emphasis of this course is on the formulation and management of individualized treatment plans based on diagnostic findings and current practice models.

FNP 674 Advanced Family NP III (3)
Prerequisite(s): FNP 672 and FNP 673.
Corequisite(s): FNP 675.
The purpose of this course is to continue to integrate basic knowledge of human anatomy and physiology with an understanding of the pathologic changes and clinical manifestations that characterize common, acute, chronic, and complex disorders in pediatric, adult, obstetric and geriatric populations. The focus of this course is on the development of critical thinking skills necessary to achieve direct care and core competencies of the family nurse practitioner. The emphasis of this course is on the acquisition of the knowledge and skills necessary to deliver safe and effective care to pediatric, adult, obstetric and geriatric populations. (210 clinical hours)

FNP 675 Advanced Family NP Practicum III (3)
Prerequisite(s): FNP 672 and FNP 673.
Corequisite: FNP 672. The purpose of this course is to continue to integrate basic knowledge of human anatomy and physiology with an understanding of the pathologic changes and clinical manifestations that characterize common, acute, chronic, and complex disorders in pediatric, adult, obstetric and geriatric populations. The focus of this course is on the development of critical thinking skills necessary to achieve direct care and core competencies of the family nurse practitioner. The emphasis of this course is on the formulation and management of individualized treatment plans based on diagnostic findings and current practice models.

FNP 676 Advanced Family NP IV (3)
Prerequisite(s): FNP 674 and FNP 675.
Corequisite(s): FNP 677.
The purpose of this course is to continue to integrate basic knowledge of human anatomy and physiology with an understanding of the pathologic changes and clinical manifestations that characterize common, acute, chronic, and complex disorders in pediatric, adult, obstetric and geriatric clients. The focus of this course is on the development of critical thinking skills necessary to achieve direct care and core competencies of the family nurse practitioner. The emphasis of this course is on the acquisition of the knowledge and skills necessary to deliver safe and effective care to pediatric, adult, obstetric and geriatric populations. (210 clinical hours)
FNP 796  FNP Project Planning and Development (3)
The purpose of this course is to synthesize previous learning in the DNP program which will provide a foundation for the FNP Clinical Residency courses. The focus of this course is on the development of a practice-focused problem, issues or process that will be pursued during the FNP Clinical Residency. The emphasis of this course is on the acquisition of knowledge and skills necessary to initiate the translation of evidence-based practice and clinical scholarship impacting the healthcare system to decrease risk and improve health care outcomes for the population served.

FNP 797  FNP Residency I (3)
Prerequisite(s): FNP 796.
The FNP Residency I is the first of three Clinical Residency courses that are considered a key component of the Doctor of Nursing Practice educational program. The purpose of this course is to combine clinical practice experiences with scholarly activities to provide in-depth learning for the student. The focus of this course is on the continued development and implementation of a practice-focused problem, issue or process that will be elevated during the FNP Clinical Residency courses. The emphasis of this course is on the acquisition of knowledge and skills necessary to initiate the translation of evidence-based practice and clinical scholarship that is impacting the healthcare system, in order to decrease risk and improve health care outcomes for the population served. (210 practicum hours)

FNP 798  FNP Residency II (3)
Prerequisite(s): FNP 796 and FNP 797.
The FNP Residency II is the second of three Clinical Residency courses that are considered a key component of the Doctor of Nursing Practice educational program. The purpose of this course is to combine clinical practice experiences with scholarly activities to provide in-depth learning for the student. The focus of this course is on the continued development and implementation of a practice-focused problem, issue or process that will be elevated during the FNP Clinical Residency courses. The emphasis of this course is on the acquisition of knowledge and skills necessary to continue the translation of evidence-based practice and clinical scholarship that is impacting the healthcare system, in order to decrease risk and improve health care outcomes for the population served. (210 practicum hours)

FNP 799  FNP Residency III (3)
Prerequisite(s): FNP 796, FNP 797 and FNP 798.
The FNP Residency III is the final Clinical Residency course that is considered a key component of the Doctor of Nursing Practice educational program. The purpose of this course is for the student to present and receive approval for the final Scholarly Project. The focus of this course is on the final development and implementation of a practice-focused problem, issue or process that was pursued during the FNP Clinical Residency courses. The emphasis of this course is on the acquisition of knowledge and skills necessary to continue the translation of evidence-based practice and clinical scholarship that is impacting the healthcare system, in order to decrease risk and improve health care outcomes for the population served. (210 practicum hours)
