

# LIBRARY MEDIA (LM)

---

**LM 512 Children's and Young Adult Literature (3)**

Evaluation of books and other materials for junior/senior high school students. Selection aids, selection criteria, and interests, needs, and abilities of young adults emphasized; children's literature component included for those who have not previously taken a children's literature course.

**LM 513 Management of Media Centers (3)**

Policies and procedures relative to the operation of a media center.

**LM 515 Internship in Media Services (3)**

Prerequisite(s): Approval of the instructor.

Directed experience in performing various services in a school library media center. Must be completed at JSU.

**LM 516 Practicum in Media Services (3)**

Prerequisite(s): approval of the instructor.

Directed experience in performing various services in a school library media center.

**LM 530 Librarian as Instructional Partner (3)**

Examines the techniques needed for successful instruction across various grade levels and disciplines with a focus on standards-based instruction and assessment.

**LM 531 Trends, Issues, Innovation and Leadership in Libraries and Schools (3)**

A survey of the current trends and issues that affect libraries and schools. Promotes the process of becoming a school-based leader and instructional partner.

**LM 532 Collection Management, Cataloging, and Reference (3)**

Criteria of selection and evaluation of media center materials for building a library media collection to support the curriculum and encourage reading for pleasure. Principles and procedures of classifying and cataloging print and non-print media. Study and evaluation of basic reference sources and services.

**LM 612 Advanced Materials for Children and Young Adults (3)**

Applies innovative tools and techniques for access and utilization of materials for children and young adults in the classroom as they relate to collaboration with teachers. E-books and other electronic media emphasized. Lesson plans that are technology-oriented will be developed as students explore the integration of a variety of materials as they relate to learning styles and enhancement of learning.
