

ARTIFICIAL INTELLIGENCE LITERACY (AIL)

AIL 200 Artificial Intelligence (AI) Literacy (3)

An introduction to the foundations of AI, how to apply it, and how to evaluate its output. The social and ethical impacts of AI as a current and emerging technology will be considered while building a responsible AI culture academically and professionally.

AIL 300 Research and Writing with AI (3)

Prerequisite(s): EH 102, EH 104, or EH 106 and AIL 200.

An introduction to best practices for generative AI (GenAI) applications in research and writing using relevant GenAI tools. Students will learn how to apply critical thinking skills to utilize AI ethically to build a responsible AI culture.
