

CRIMINAL JUSTICE (BACHELOR OF SCIENCE)

The Bachelor of Science in Criminal Justice prepares the student for a job in either a law enforcement or correctional field. It provides insights into the study of the role and functions of police and correctional organizations as agents of social control in a democratic society. This includes an understanding of the history, organizational structure, policies, planning, and coordination among various criminal justice organizations. The importance of establishing and maintaining positive, supportive relations with the public is an area of special interest.
