

DEPARTMENT OF PSYCHOLOGY

Department Head: Dr. Paige McKerchar

211 Ayers Hall

The Mission of the Department of Psychology:

- Develop a thoroughgoing, science-based psychology curriculum for understanding behavior
- Establish student learning outcomes related to basic psychological principles, research methods, critical thinking, and professional skills
- Support student participation in research programs and community service projects

These experiences are designed to allow students the opportunity to practice discussing major psychological principles and research findings, to apply psychological principles and procedures to real-life settings, and to eventually pursue careers in an array of human-service industries or admission to various graduate programs.
